Impact Evaluation of Development Interventions
(10 – 12 September 2025) at NIRDPR Campus, Hyderabad.

Development programmes are launched with the goal of making a meaningful difference in people's lives. But how do we know if these interventions are truly creating the intended impact? For instance, our programme theory is 'An Apple a Day Keeps the Doctor Away'. Sounds great. But does it...R E A L L Y? Does '*one apple a day keep the doctor away*' really hold up in practice? How do we know this?

This training explores key questions that every development professional must ask:

- Are we making a real difference?
- Is our Theory of Change holding up in practice?
- What is the Social Return on Investment (SROI)?
- When expected results are missing, is it a design flaw—or a delivery gap?

Join us to understand the frameworks, tools, and methods to measure change effectively — and to strengthen the evidence base for better development outcomes.

Programme Dates

1. Communication for Behavioural Impact (COMBI) in Social Development Projects (6 – 8 August 2025) 3-days at NIRDPR Campus, Hyderabad.
2. Impact Evaluation of Development Interventions (10 – 12 September 2025) 3-days at NIRDPR Campus, Hyderabad.
